IT Skills

Software Development Skills: Responsive Website Development, Data Management, AI-Driven Development

Core Programming Languages/Frameworks:

Next.JS (React Full-Stack Framework), Typescript, Tailwind CSS, Prisma ORM, Supabase (Postgres Database), Clerk (Authentication & User Management Platform) *

HTML, CSS, Javascript, SQL, Python +

Toolkit: VS Code/Cursor IDE, Terminal, Git/Github, AI Coding Agents (Claude, Gemini LLMs)

Projects: Personal Music Website (**HTML, CSS, Sass**), Simple Quiz Web Application (**HTML, CSS, Javascript**), Python/Database Application (**Python, SQL**), Robofriends Simple Web App (**React**), (3x) Adapt Learning e-learning course (**Adapt Authoring Tool/Framework**), VisualFlow Content Marketing Website (**Next.JS**)

Personal Profile

Past & Present: Able to work alone or within a team, I thrive on making a positive difference within a workplace, with good attention to detail.

A diligent **Front-end Web Developer** with growing Back-end skills for data management, able to build a web presence from the ground up from concept through to navigation and responsive layout. I have a passion for structure, both for UI visuals/functionality, and for data. I am also developing my ability to selectively utilise AI tools for development and integration into web projects.

Future: Willing to learn and grow within the fields of **Full-Stack Web Development, e-Learning Development, Web Design, UI/UX Design, Data Management, SEO,** and **Generative AI integration.**

Relevant Employment History

05/25 - 08/25 **Freelance website project (for Visualflow Learning Design & Media Production)**
Front-end Web Developer (Full Time)

- Development and test deployment of a content-driven website for a Learning Design & Media Production studio, using Next.JS (React Full-Stack Web Framework), Tailwind CSS, and occasional, appropriate AI tools to aid mainly manual development. This was carried out mindfully with respect to company data and followed up by instructive handover of website files to the client for their own final design customisations.
- Flexibility/Adaptability: Adapting to implemental changes as and when needed upon progressive review.
- Time management/Organisation: Prioritising component layout, functionality, asset management, styling, code quality, and dependency management for development of content-rich responsive webpages.

09/24 - 12/24 & 02/25 **Freelance: Visualflow Media Content & Learning Design, Bow, London**
Support e-Learning Developer (Full Time)

- Team working skills: Supporting the lead Learning Designer with front-end web development using the Adapt Authoring tool to produce three e-learning packages for the NHS via UWE Bristol.
Followed up by a further e-learning course in Audio Sound Mixing, produced for churches, along with documentation on specific processes, produced as a contribution to the Adapt Learning open-source project.

- Flexibility/Adaptability: Addressing course creation requirements and changes as and when needed.
- Time management/Organisation: Prioritising course content implementation followed by configurations and CSS coding for responsive layout design.
- Trouble shooting/Problem solving skills: Copyediting and solving various technical issues along the way.

02/18 - 06/20

Life Church Southampton, Southampton

Website Content Assistant Volunteer (Part Time)

Using Wordpress CMS and FileZilla FTP Client:

- Time management/Organisation: Working to a tight schedule in order to ensure that audio and related content was uploaded and ready on time.
- Verbal/Written skills: Communication with the office team and attention to detail in sharing content on social media and managing metadata for podcasts.
- Trouble shooting/Problem solving skills: Checking and fixing metadata for podcasts.

Further Work History And References Available Upon Request

Education and IT Training
